

Designed for easy, effective compaction of asphalt, soil and other non cohesive materials (stone blocks). Built for fast travel and high productivity, ideal for rental and surface repairs.

Features and benefits

- Shaped base plate to allow greater manoeuvrability
- Tubular lifting frame provides engine protection and easy lifting on site
- Proven Honda engine for maximum reliability
- Side lifting point for easy manual handling
- Handle design minimises vibration for safe operation
- Durable protective covers keep debris out prolonging product life
- Optional paving pad, transport wheels and water tank

Details

Model number		SE10-35
Operating weight	kg (lb)	73 (161)
Plate width	mm (in)	350 (14)
Plate length	mm (in)	527 (21)
Gradability	%	30
Centrifugal force	kN	10.5
Frequency	Hz	90
Travel speed	m/min (ft/min)	23 (75)
Engine		Honda GX120
Fuel		Petrol
Water tank		Optional
Paving pad		Optional
Transport wheels		Optional

Forward Vibratory Plate

A GLOBAL COMMITMENT TO QUALITY

JCB's total commitment to its products and customers has helped it grow from a one-man business into Britain's largest privately owned manufacturer of backhoe loaders, crawler excavators, wheeled excavators, telescopic handlers, wheeled loaders, dump trucks, rough terrain fork lifts, industrial fork lifts, mini/midi excavators, skid steer loaders, tractors and compaction equipment.

By making constant and massive investments in the latest production technology, the JCB factories have become some of the most advanced in the world.

By leading the field in innovative research and design, extensive testing and stringent quality control, JCB machines have become renowned all over the world for performance, value and reliability.

And with a global sales and service network of more than 650 dealers and agents, we aim to deliver the best customer support in the industry.

Through setting the standards by which others are judged, JCB has become one of the world's most impressive success stories.
